自我评价

- **商业分析与数据洞察能力：**具备数据分析与业务洞察能力，能够基于数据分析与业务调研识别关键问题，提炼核心结论并输出可落地的策略建议。
- **顶级跨部门统筹：**具备咨询与产品管理复合背景的项目与运营管理人才，拥有企业级系统（税务、供应链、WMS）数字化转型经验。具备极强的复杂 Stakeholder 管理能力，擅长在中外团队、业务方与研发/设计侧之间建立共识。
- **跨团队协作与项目推进：持有 PMP 证书。**具备跨部门沟通与项目推进经验，能够协调多方资源推动分析结论落地，并支持业务持续优化与增长。
- **全球化项目基因：**拥有美国 Top 名校背景及英语母语级工作能力，具备丰富的跨时区、跨文化团队协作经验。

教育背景

伊利诺伊大学厄巴纳-香槟分校 University of Illinois, Urbana-Champaign 香槟, 伊利诺伊, 美国
信息管理硕士学位 (GPA: 3.9 / 4.0, 专业前 5%) 08/2023 – 12/2024

- **相关课程：**数据仓库和商业智能(A)、数据挖掘(A)、信息建模(A+)、数据科学(A)等。

加州大学圣克鲁兹分校 University of California, Santa Cruz 圣克鲁兹, 加州, 美国
技术信息管理学士学位 09/2017 – 03/2021

- **相关课程：**算法和数据结构(A)、计算机网络(A)、数据库管理系统(A)、宏微观经济学等。

工作经历

零售云研发部 – 海外产品经理 08/2025 – 至今
多点生活（武汉）科技有限公司 湖北, 中国

- 负责海外仓储管理系统（WMS）产品项目的整体规划与推进，主导从客户需求调研、业务蓝图设计到产品需求交付的全流程管理。
- 组织并主持跨部门项目会议（需求评审/方案评审/项目推进），协调研发、测试及业务团队高效协同。
- 分析仓储业务数据，识别库存与运营效率问题，并提出优化方案。
- 通过英文会议与海外客户沟通需求与方案，推动跨区域项目顺利执行。同时通过跨区域业务对比分析，优化系统设计与业务流程。
- 管理项目里程碑与迭代节奏，跟踪关键风险与问题，确保项目按计划落地。

税务科技咨询部门 - 咨询顾问 07/2021 – 04/2023
德勤管理咨询（上海）有限公司 湖北, 中国

- 参与大型企业税务数字化转型项目，负责需求调研、业务流程设计与项目推进。
- 基于数据分析与业务调研，识别关键问题并提出优化策略。
- 协调业务部门与技术团队资源，推进系统模块开发与实施上线。
- 参与项目进度管理与关键节点交付，支持项目顺利推进。
- 验证并整合客户数据，通过数据分析识别流程瓶颈，设计并推动自动化解决方案落地，有效支持客户财税数字化转型与合规管理。

税务技术部门 - 咨询顾问（实习） 06/2024 – 08/2024
普华永道咨询（深圳）有限公司北京分公司 北京, 中国

- 支持跨国项目需求分析与系统设计，参与项目沟通与进度协调。
- 每周输出数据化进展报告，提炼需求分析、技术难点及解决方案等关键洞察，辅助 stakeholder 决策。

核心项目经验

AI Agent 业务流程自动化战略项目

02/2026 – 至今

- 负责基于 AI Agent 的业务流程自动化项目，从业务需求定义到方案设计与落地推进。
- 设计多角色智能体协作机制，明确任务分工与协同流程，提升复杂业务场景下的执行效率。
- 推动 AI 从“辅助分析”向“自动执行”转型，在设定业务规则下实现关键流程自动化闭环。
- 协调技术资源完成系统原型搭建与数据对接，支持项目从概念验证（POC）到初步落地。

海外 WMS 系统蓝图设计与产品落地（菲律宾 SM 集团）

08/2025 – 至今

- 主导海外大型零售集团仓储管理系统（WMS）从 0 到 1 的产品规划与蓝图设计。
- 分析仓储业务数据，识别库存与运营效率问题，并提出优化方案。
- 构建关键业务指标体系，支持运营决策与绩效评估。
- 通过跨区域业务对比分析，优化系统设计与业务流程。

AI 辅助跨境税务法规问答功能升级

06/2024 – 08/2024

- 参与智能功能迭代，用 SQL 分析用户交互数据，制定“响应速度 - 准确率”双维度评估标准，评估 AI 模型的性能与可靠性风险，支撑模型从 ChatGPT 迁移至 DeepSeek-R1。
- 协调跨时区团队推进开发，通过 Tableau 看板追踪效果，最终响应效率提升 40%，验证技术方案与业务场景的适配能力。

税务数字化转型项目（大型国有企业集团）

01/2022 – 04/2023

- 参与企业税务系统数字化建设，负责核心模块需求分析与方案设计。
- 推动自动化处理流程落地，提升数据处理效率与准确性。
- 协调多部门资源，支持系统上线与业务切换。

RPA 自动化流程优化项目（大型汽车央企集团）

07/2021 – 06/2022

- 设计并推动定制化机器人流程自动化(RPA)解决方案，集成数据分析模块进行校验，开发风险预警功能。推动需求沟通、方案设计、开发协调与上线部署。
- 显著提升申报效率，降低人工错误率 25%，提高集团整体运营效率。

技能

- 项目管理：** PMP 认证、项目规划、里程碑管理、风险控制
- 产品管理：** 需求分析、PRD 编写、UAT 测试、产品迭代管理
- 工具：** Microsoft 365（PowerPoint / Teams / SharePoint / Excel）、Jira
- 数据分析：** SQL、Tableau、Python、Power BI、帆软、Excel;
- 证书：** 项目管理专业人士 (PMP)，MATLAB（MathWorks 认证），R（DataCamp 认证）
- 语言：** 中文（母语）、英语（流利，工作语言）

PROFESSIONAL SUMMARY

- **AI Application & Data Infrastructure:** Proficient in the complete evolution path from traditional business systems to intelligent architectures. Experienced in LLM application deployment and Multi-Agent collaboration mechanism design. Adept at transforming complex entity business data into "AI-Ready Data," driving the leap of AI from "assisted analysis" to "automated execution."
- **B-End Complex System Architecture & Full Lifecycle Management:** PMP Certified. Extensive experience in designing global enterprise-level systems (WMS/Core Tax) from 0 to 1. Possess strong capabilities in cross-border/cross-functional team alignment and resource integration. Capable of independently managing the full lifecycle from business blueprint planning to the high-quality delivery of complex AI strategic projects.
- **Deep Industry Insight & Data-Driven Decision Making:** Deeply rooted in supply chain and enterprise service sectors with exceptional capabilities in dismantling and reshaping complex business logic. Skilled in integrating cutting-edge AI technologies with specific business pain points (e.g., inventory control, process compliance) to build data-driven decision-making systems, achieving genuine cost reduction, efficiency enhancement, and commercial value conversion.

EDUCATION

University of Illinois, Urbana-Champaign

Master of Science in Information Management (GPA: 3.9 / 4.0 (Top 5%))

Champaign, IL, US

Aug 2023 - Dec 2024

Relevant Coursework: Data Warehousing and Business Intelligence, Data Mining, Information Modeling, etc.

University of California, Santa Cruz

Bachelor of Science in Technology Information Management

Santa Cruz, CA, US

Sep 2017 - Mar 2021

Relevant Coursework: Algorithms and Data Structures, Computer Networks, Database Management Systems, etc.

PROFESSIONAL EXPERIENCE

Dmall Inc.

Overseas Implementation & AI Product Manager, Retail Cloud R&D Department

Hubei, China

Aug 2025 - Present

- Led the **product architecture design** for the overseas WMS. Managed the full lifecycle from in-depth client requirement gathering and business blueprint design to Product PRD delivery, laying a robust system foundation for subsequent intelligent transformations.
- Served as a core driver for the **LLM-based AI Agent business** automation project. **Designed Multi-Agent collaboration mechanisms**, propelling the leap of AI applications from "assisted analysis" to "automated execution," and managed the end-to-end product delivery from POC to system integration.
- Architected data-driven functional modules customized for complex business scenarios, directly empowering operational decision-making and streamlining workflow processes.
- Streamlined the core data dictionary and drove the transformation of raw warehouse data into "**AI-Ready Data**". Successfully incubated AI modules such as intelligent inventory alerts, significantly reducing manual intervention costs.

Deloitte Consulting Company Limited

Consultant, Tax Technology Consulting

Hubei, China

Jul 2021 - Apr 2023

- Acted as a core member of large-scale enterprise transformation projects. Conducted in-depth research on complex business scenarios and reshaped business process blueprints, laying the groundwork for the intelligent upgrade of core financial and tax systems.
- Managed large-scale data validation, cleansing, and cross-system integration (ETL logic optimization). Leveraged data analytics to pinpoint process bottlenecks, and designed data-driven automation solutions that drastically improved the client's financial compliance efficiency.
- Coordinated resources across business units and R&D teams to establish an agile communication mechanism. Strictly controlled key project milestones, ensuring the high-quality launch and implementation of multiple system modules.

PricewaterhouseCoopers Consulting Co., Ltd. Beijing Branch

Associate, Tax Technology

Beijing, China

Jun 2024 - Aug 2024

- Participated in the intelligent and **automated transformation planning** for multinational tax systems. **Aligned cross-functional teams** in India and the UK to streamline cross-system business logic and underlying data flows, strictly evaluating data availability and **AI implementation feasibility** in complex scenarios.
- Established an efficient, closed-loop progress tracking mechanism across time zones, ensuring high-quality data workflows

complied with multinational business regulations and delivery standards.

- Extracted critical insights covering business requirements, technical bottlenecks, and automation alternative solutions. Formulated data-driven reports to assist multinational management in strategic decision-making, ensuring 100% on-time project delivery.

CORE PROJECT EXPERIENCE

AI Agent Business Process Automation Strategic Project

02/2026 – Present

- Directed the overall planning of the **AI Agent business automation** strategic project. Drove the strategic automation project from POC to full business launch by managing prototype construction and core data integration.
- Designed **multi-role agent task** distribution and collaboration workflows tailored for complex business scenarios, significantly improving execution efficiency.
- Upgraded AI from passive "assisted recommendations" to active system API invocations, automating the entire flow from data analysis to action triggering.

WMS Blueprint Design & Digital Implementation — SM Group (Philippines).

08/2025 – Present

- Led WMS blueprint design and implementation for the largest retail conglomerate in the Philippines, digitalizing end-to-end warehouse operations—from receiving to put-away, picking, and store dispatch.
- Conducted **over 50 English requirement workshops**, defining over 100 core operational rules and completing over 300 pages English blueprint document for different modules.
- Translated blueprint into functional PRDs, clarified module logic and acceptance criteria, and aligned technical design with business objectives.
- Worked with the implementation team on UAT and go-live planning; project expected to improve warehouse efficiency by 30%+ and enhance data accuracy to nearly 95%.

LLM-based Regulatory Q&A Upgrade — PwC Project

Jun 2024 – Aug 2024

- Drove the transition **from ChatGPT to DeepSeek-R1** by establishing a dual-dimension (Speed vs. Accuracy) SQL-based evaluation standard.
- Built real-time **Tableau dashboards** and aligned cross-timezone teams, successfully elevating business response efficiency by 40%.

RPA Automated Process Optimization Project — Large State-Owned Auto Group

Jul 2021 – Jun 2022

- Handling the requirement breakdown and implementation of **enterprise-level RPA construction** customized solutions.
- Designed and implemented tailored RPA tax-filing workflows across **1,000+ subsidiaries**. Successfully integrated automated data validation and risk alert modules to ensure compliance and minimize manual errors.
- Deeply involved in the **entire process** of "requirement communication - solution design - R&D coordination - deployment." The project ultimately boosted group-level declaration efficiency, directly reduced manual error rates by 25%, and achieved a leap in operational efficiency.

SKILLS

- **AI & Data Science Foundation:** Machine Learning (Classification/Predictive Models), Feature Engineering, Exploratory Data Analysis (EDA), Statistics; Highly proficient in Large Language Model (LLM) Application Frameworks, Prompt Engineering, Retrieval-Augmented Generation (RAG), and Multi-Agent Collaboration Mechanisms.
- **Product & AI R&D Tools:** Requirement Analysis, PRD Writing, UAT Testing, Project Management (PMP); Highly skilled in leveraging AI coding assistants (e.g., **Cursor, Claude Code, GitHub Copilot**) to conduct technical feasibility assessments and rapid Proof of Concept (POC) validation.
- **Data Analytics & Visualization:** Python (Data Cleansing), SQL (Complex Queries/Multi-Table Joins), Tableau, Power BI, FineReport, Excel (Advanced).
- **Database & Data Pipelines:** MySQL, PostgreSQL, Oracle; Possess a solid understanding of data extraction and ETL logic; Exceptional capability in driving the transformation of traditional business data into **"AI-Ready Data"** to robustly support the deployment of automated systems.
- **Certifications & Languages:** Project Management Professional (PMP), MATLAB (MathWorks Certified), R (DataCamp Certified); Chinese (Native), English (Fluent, Full Professional Proficiency - perfectly capable of working in an all-English environment).
